

## ATTACK SERIES

The Attack offers extensive adjustability and maximum durability all rolled into one. This pole-mounted, bold-down hoop features EZ-Crank adjustment and an acrylic backboard.

## ROOFMASTER SERIES

The Roofmaster series offers great adjustability and is perfect for the customer who has no place for a pole-mounted hoop system. This series is versatile enough to mount to any roof pitch or vertical wall surface.

## SLAM SERIES

The Slam series offers a unique combination of adjustability, durability, and affordability. The Quick-Pin adjustment system in this pole-mounted hoop makes the height adjustment quick and easy.

## JAM SERIES

The Jam series is an adjustable hoop that eliminates the risk of joint deterioration that is common to sectional style posts.

It uses spring-aided EZ-Crank height adjustment from 7-10' with a rim height indicator on the back of the unit.

### POWERHOUSE SERIES

The Powerhouse series utilizes a hand crank height adjustment system called EZ-Crank as well as a rim height indicator. The 5x5" pole attaches using a bolt-down anchor base for ease of assembly and relocation.

### ROLLAJAM SERIES

This unique line of basketball goals has the residential player in mind. The spring-assisted crank allows for easy rim height adjustment that any age players can operate.

To transport the portable RollaJam system, simply retract the vertical post, using the post actuator located on the base unit. As the post pitches back, the unit lowers onto the transport wheel.

### HYDROSHOT SERIES

This series brings premium grade basketball performance to your poolside with fully adjustable hoops. These models are built tough and never rest. A convenient crank handle raises and lowers the height. These are built for commercial and residential settings.

### INVADER SERIES

This portable series is also equipped with the EZ-Crank adjustable height design. The large 33 gallon poly base can be filled with sand to provide a stable base and is still easy to move by just one person. This is the ultimate budget solution while still maintaining top quality.
